SUMMARY

Electronics and Telecommunication Engineering graduate with practical experience in Embedded Systems and Embedded C. Proficient in microcontroller programming, firmware development, RTOS concepts, and communication protocols. Aspiring Embedded Software Engineer/Firmware Engineer with a passion for developing reliable embedded solutions.

EDUCATION

Bachelor of Engineering (B.E.) – Electronics & Telecommunication Engineering: 8.14 CGPA
Jai Hind College of Engineering, Kuran, Pune Nov 2022 – Jun 2026

Higher Secondary Certificate (HSC): 72.83%
Maharashtra State Board of Higher Secondary Education 2022

Secondary School Certificate (SSC): 86%
Maharashtra State Board of Secondary Education 2020

INTERNSHIPS & TRAINING

Embedded Systems Intern – Emertxe Information Technologies, Bangalore
Dec 2025 – Jan 2026

- Completed training in Embedded Systems, Embedded C, and **PIC16F877A** microcontroller fundamentals.
- Developed and tested **Embedded C** programs using **PIC16F877A** and **PICSimLab**.
- Developed embedded applications relevant to Embedded Systems, Electronics, and IoT domains.
- Gained hands-on experience in sensor interfacing, debugging & firmware development using Embedded C.

Embedded Systems / IoT Intern – Omegasoft Technologies, Pune
Jan 2026 – Jun 2026

- Worked on Embedded Systems and IoT applications using Arduino, ESP32, and Embedded C.
- Interfaced multiple sensors and implemented hardware-software integration using Embedded C.
- Developed embedded applications using **PIC18F4580**, **LPC2148**, **STM32F407**, and Embedded C.
- Developed IoT prototypes using **Arduino**, **ESP32**, **sensors**, and wireless communication modules.

PROJECTS

Smart Helmet for Accident Detection and Safety (B.E. Project)
Aug 2025 – May 2026

- Developed an **ESP32-based smart helmet** for accident detection and rider safety.
- Integrated **MPU6050**, **IR Sensor**, **GPS**, **GSM**, and **MQ-3** sensors for accident detection and alerts.
- Implemented **Embedded C firmware** for sensor interfacing, data processing & automated SOS notification.
- Enabled **automatic SOS alerts** with live GPS location during accident detection.

TECHNICAL SKILLS

Languages: C, C++, Embedded C, Python.

Microcontrollers: Arduino, PIC18F4580, LPC2148 (ARM7), STM32F407G (ARM Cortex-M4), ESP8266.

Communication Protocols: UART, SPI, I²C, CAN, MQTT, Wi-Fi, Serial Communication.

Embedded Systems: GPIO, PWM, ADC, Timers, Interrupts, RTOS, Device Drivers, Firmware Development.

Tools: STM32CubeIDE, MPLAB X IDE, Keil µVision, Arduino IDE, Visual Studio Code, Proteus Simulation.

Hardware & Electronics: Sensor Interfacing, Circuit Design, PCB Design, PCB Quality Inspection, Circuit Testing, Digital Multimeter, Troubleshooting.

Other Skills: Project Management, Problem Solving, Troubleshooting, Team Collaboration, Analytical Thinking, Time Management.
